H-500

Cellular energy powered from within

coralclub

H-500

Dietary Supplement

120 CAPSULES

Supplement Facts

Serving Size 1 Capsule
Servings Per Container

Amount Per Serving

H-500
Proprietary Blend
(Potassium citrate, Magnesium citrate, Potassium ascorbate, Silicon dioxide, Sorbitol)

* Daily Value not established

Other ingredients: (Contains water).

Manufactured by: Coral Club Inc., 240 Cross Street, USA.

H-500 is Energy at the Cellular Level

A powerful antioxidant blend for daily protection

Supports optimal cellular health and performance

Reduces fatigue and stress for sustained energy

Free Radicals: The Molecules That Drain Your Energy

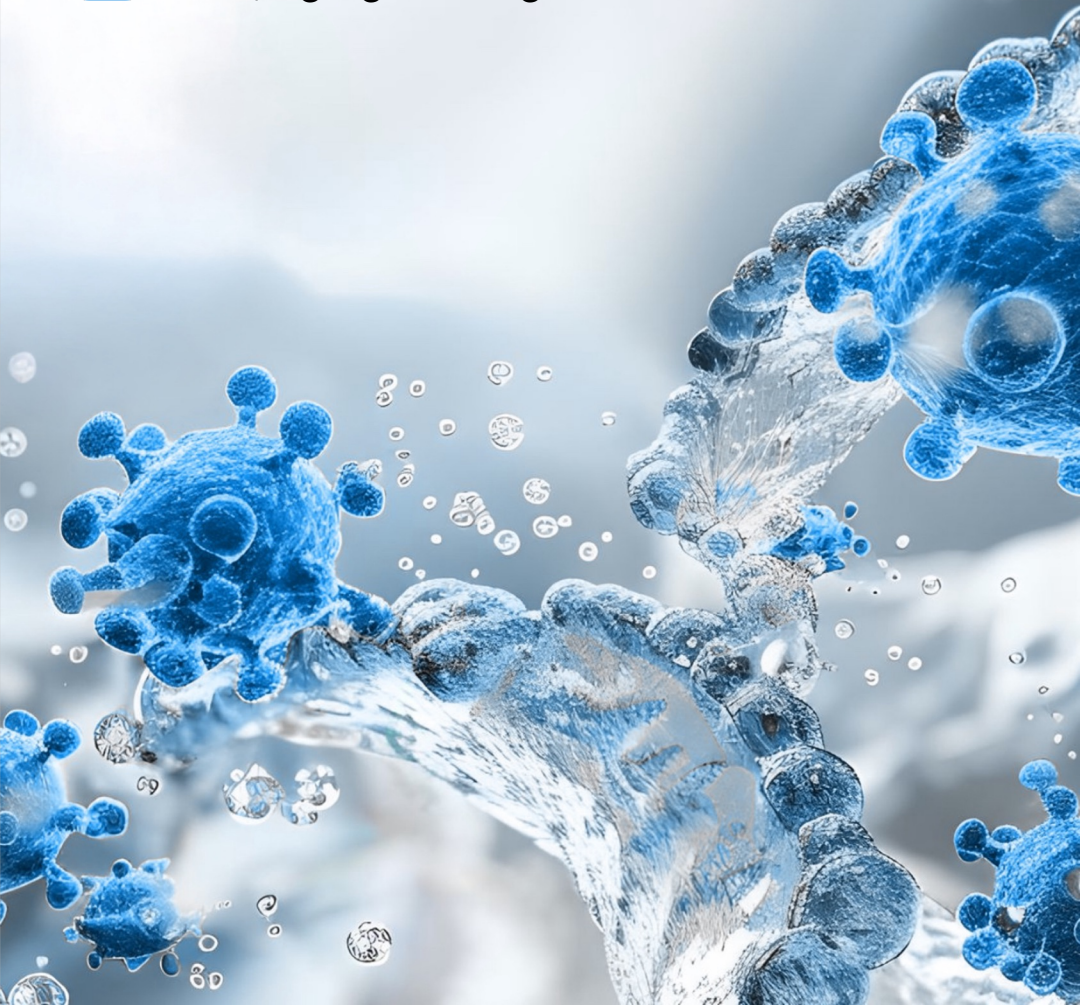

Environmental toxins, stress, and poor diet trigger the buildup of free radicals inside our cells.

When there are too many of them, the body enters oxidative stress – a state where it can't repair or protect itself efficiently.

Free radicals are unstable molecules that damage cells by “stealing” electrons.

Common Signs of Oxidative Stress

- Persistent fatigue
- Trouble focusing or mood drops
- Weakened immunity
- Slow recovery after workouts
- Dull, aging-looking skin and hair

Antioxidants: Your Body's Natural Defense System

Antioxidants neutralize free radicals before they can damage your cells. Your body makes its own antioxidants, but under stress, the natural defense simply isn't enough.

That's where dietary antioxidants – the ones you get from foods and supplements – step in to provide essential protection.

H-500 is Energy in Every Cell

- Helps maintain healthy cellular function
- Neutralizes harmful free radicals
- Boosts natural energy levels

What makes H-500 unique:
A signature blend of minerals and hydrogen potential that delivers deep cellular restoration.

K

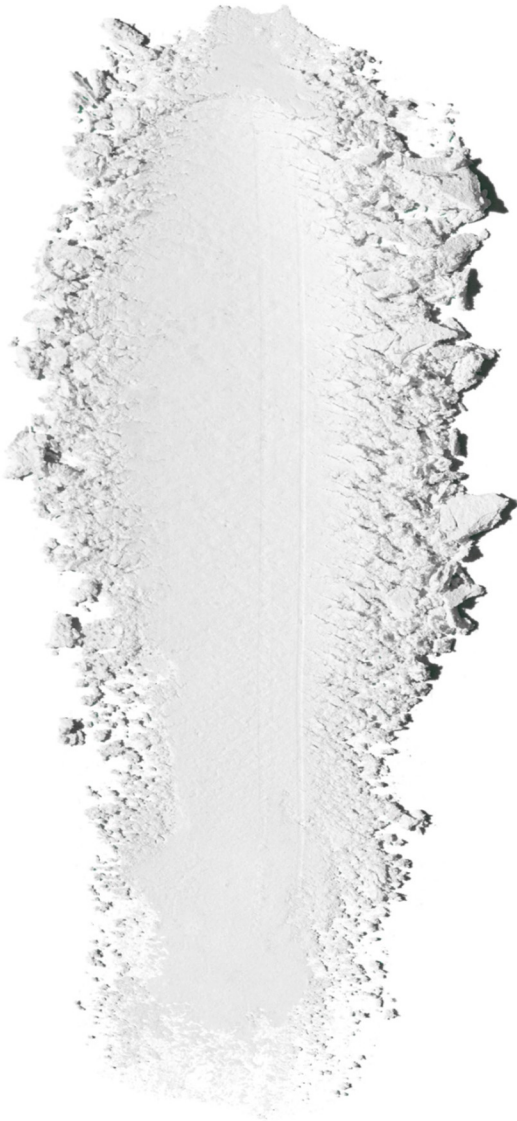

Mg

Na

Si

Where Does the Hydrogen Come From?

H-500 contains a blend of mineral salts, including: potassium citrate, magnesium citrate, potassium ascorbate, sodium borate, and silicon dioxide.

What Happens When You Take H-500

1

The mineral salts dissolve inside the body, releasing ions – including hydrogen ions.

2

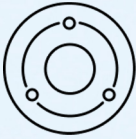

These ions react with water and other compounds.

3

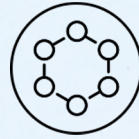

Active forms of hydrogen are created – powerful antioxidants that donate electrons to neutralize free radicals.

The Power of Hydrogen: Total Cellular Protection

H-500 creates an environment rich in active hydrogen ions that help:

Neutralize free radicals

Improve cellular respiration

Support a healthy pH balance

Stimulate ATP (energy) production

H-500 Helps You:

Protect your cells from oxidative stress

Recover faster after physical effort

Maintain productivity, stamina, and resilience

**Dietary
Supplement**

120 CAPSULES

Supplement Facts

Serving Size 1 Capsule
Servings Per Container

Amount Per Serving

H-500
Proprietary Blend
(Potassium citrate, Magnesium citrate, Potassium ascorbate, Silicon dioxide, Sucralose)

† Daily Value not established

Other ingredients (may include water).

Manufactured by Coral Club Inc., 240 Crouse Dr., St. Louis, MO, USA.

For anyone living life at full speed and wanting deep, internal recovery.
H-500 is especially beneficial for those who:

Struggle with chronic fatigue

Face stress or constant overload

Have an active lifestyle – whether physical or mental

Want to support their health while recovering from illness or simply as ongoing preventive care
